Introduction

The Caly Locations User Manual is a guide to help users understand how to use the Caly Locations application.

This manual will provide an overview of the application, how to get started, and how to use the application.

Overview

The Caly-Locations application is a web-based application that allows consultants to view and log trips to their respective client locations. The application authenticates users using Microsoft Azure Active Directory and once users are authenticated they will be able to view previous trips, log new trips, view an interactive map and download a PDF trip report. This PDF is what consultants will attach to *Simple Pay* for reimbursement. This report will include the following information:

- Consultant Name & Surname
- Claim number
- Claim date & time
- Consultant's location
- Client's location
- Description of the trip if needed
- Distance travelled
- Number of trips (*Note that a trip is considered a trip to a client location and back to the consultant's location*)
- Cost breakdown
- Grand Total (*Total cost of all trips*)
- Disclaimer (*Round trips are limited to 160km per*
-

day) Note that the reimbursement rate is calculated using SARS rates.

Below find a breakdown of the SARS rates:

Distance	Rate
----------	------

0-50km	R4.86/km
51-100km	R3.65/km
101-160km	R2.43/km

Getting Started

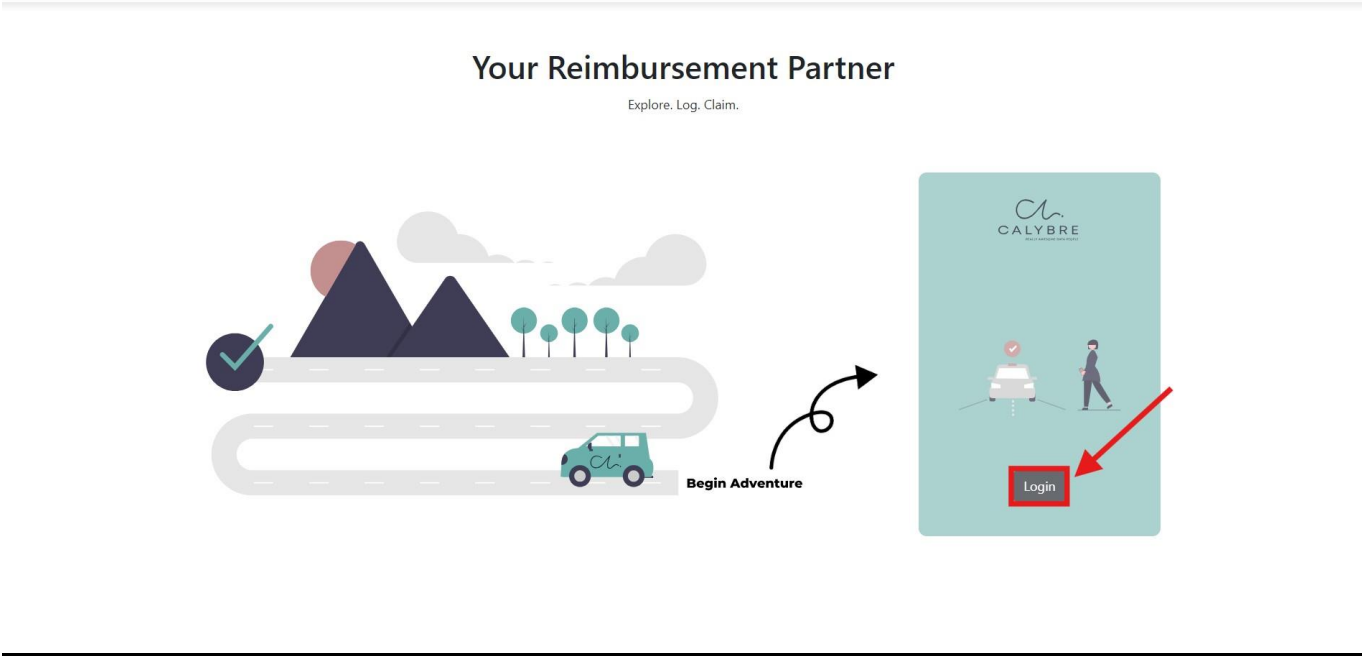

To use the Caly Locations application, users will need to authenticate against Calybre's Azure Tenant, and thus consultants will need to be part of Calybre's Azure Active Directory. If you are unable to access the application, please reach out to a member of the team using the [contact information](#) below.

User Guide

1. Logging In

- 1.1 Navigate to [Caly Locations](#).
- 1.2 Once the application has loaded, click on the **Login** button.

CALY • Locations

2. Authentication

- 2.1 You will be redirected to the Microsoft Azure Active Directory login page. Enter your Calybre email address and password to authenticate.
- 2.2 Once authenticated, you will be redirected back to the Caly Locations home page.

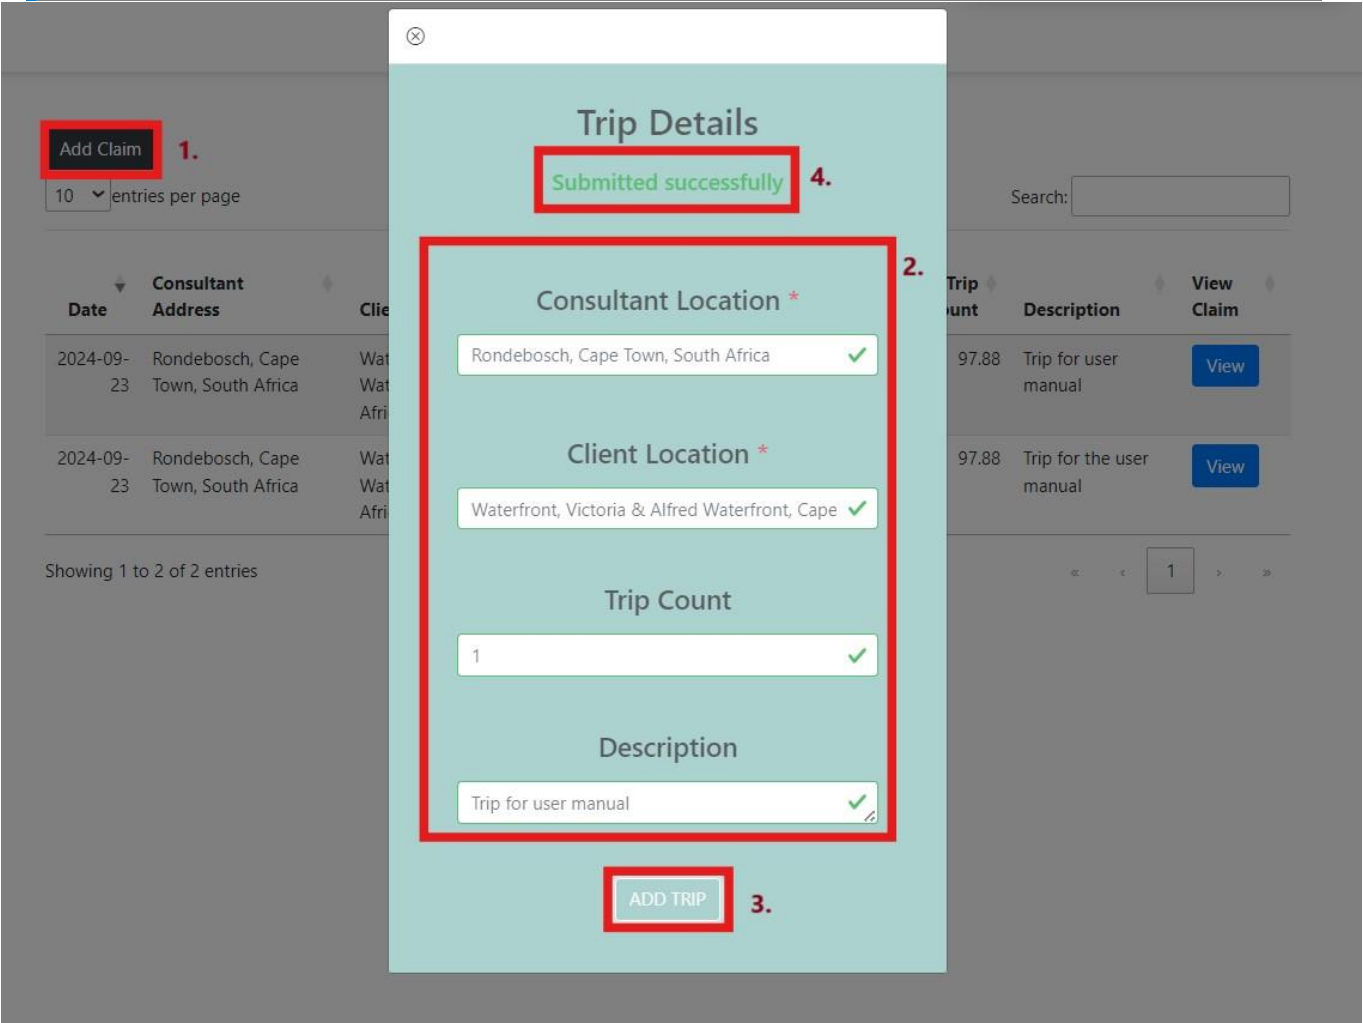

3. Logging a Trip

- 3.1 To log a new trip, click on the **Add Claim** button. This will result in a pop-up modal appearing where you will enter the details of your trip.

3.2 Enter the following details:

- **Consultant Location:** Location where you left from to travel to the client.
- **Client Location:** Location of the client you are visiting.
- **Trip Count:** Number of trips made to the client location. *Note 1 trip is considered a trip to the client location and back to the consultant's location.*
- **Description:** A brief description of the trip. This is optional.

3.3 Once you have entered the details, click on the **Add Trip** button. If the trip was successfully logged, you will see a success message "Submitted successfully".

3.5 Once successfully logged, close the modal and you should see the trip appear on the home page.

4. Viewing Trips

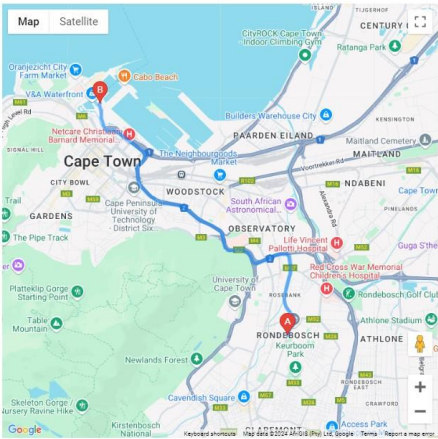

- 4.1 To view or download a specicic trip, click on the **View** button next to the trip you would like to view. This should redirect you to a page that shows information of the trip along with an interactive map of the trip.
- 4.2 If this is a trip you would like to download for reimbursement, click on the **Preview** button. This will redirect you to a page where you can preview the PDF report before downloading it.
- 4.3 If you don't want to download the report, instead of clicking on the **Preview** button, click on the **Back** button to return to the home page.
